R'GHT TO ERECT BEFORE COURT

Suit to Enjoin Lighting Company From Using Poles Issue

MAY DECIDE SOON

Judge Barley Intimates Property Owners Right Extend to Middle of Streets—Interest in Decision

A case of interest which was heard today in the corporation court before Judge L. C. Barley was that of John J. Bayne and Norman R. Davis to enjoin the Alexandria County Lighting Company from using a pole constructed erected in front of their homes on the west side of Columbus street between Queen and Princess streets.

After hearing the arguments on both sides Judge Barley took the matter under advisement and it is expected will render his decision shortly.

The matter is of interest inasmuch as the right of not only the defendant company but also the rights of other companies, both telephone and telegraph, to plant poles along the streets where objection is raised by the property owners is at stake. In all probability the matter may eventually go to the state court of appeals for final disposition.

Judge Barley intimated from the bench that the property owners owns the right of way to the middle of the street and that the property owner should be consulted before the a pole is erected in front of their premises.

The plaintiffs were represented by Attorneys Howard W. Smith and William P. Woolls and Attorney Leo P. Harlow appeared for the defendant company.

The property owners intended to secure an injunction to prevent the pole being erected but it was planted before they could do so hence the proceedings to prevent its use.

Mendel placed the money in his clothing and then forget it until a few hours after the package had gone to the laundry. Hurrying to the plant he immediately made inquiries about it anly to be overjoyed to learn that the money had been found by a worker and was in the vault awaiting a call from the owner.

CALL MALADY "CIDERITIS"

Doctors Discover New Ill, Due to Passing of Barleycorn

Pittsburgh,, July 31.—The demise of John Barleycorn has brought into being a new malady. Bertha Somberry was a very sick woman Tuesday night. No one among her friends had ever known her to be ill and the event was one for dire prediction. Taken to the Allegheny General Hospital, the physicians there were, to use the word of a nurse, "stumped" At last, for the want of a better term, the woman'c malady was chirstened "cideritis."

If "cideritis" works on all species of the human race as did on Miss Somberry, it would be well to resurrect old John B. instanter, as "cideritis" exemplified in her malady has dementia Americania backed off the boards. The police picked up Miss Somberry late Tuesday night. She was indulging in gymnastics, not only strenuous, but intensely interesting to pedestrians.

DESERTED HIS MEN

Boston Lieutenant Given 10 Year Sentence

Ayer, Mass., July 31.—Convicted of deserting his men, whom he had led into the fire of the enemy, Samuel H. Stone, formerly a second lieutenant of the One Hundred and First Regiment, showed that he had headed night patrols to the edge of No Man's Land four times, and when having drawn the fire of the enemy he left the men to their own resources and withdrew.

Again, when his company was going into action at Chateau Thierry in the first wave. Stone was seen to run to the rear. A guard in the supporting line halted him, but Stone was allowed to proceed when he said he was returning for maps. His platoon suffered losses which the court-martial held included needless loss of life due to Stone's defection.

Stone, whose home is in Boston, was an officer in the National Guard before it was Federalized and the One Hundred and First Regiment formed.

GIRL'S DEATH ACCIDENTAL

Paterson, N. J., July 31.—Lester Decker, twenty, held in connection withe the drowning of his sweetheart, Miss Mabel Harris, twenty, was released from jail today. The girl's relatives, as well as county officials, apparently were convinced her death was an accident.

Miss Harris was drowned in Pompton Lake Sunday night, when Decker's canoe was swept over a dam. The youth failed to report her death until the next afternoon. Then he said he was lying down in the canoe resting when the craft went over the dam.

The autopsy on the body, which was recovered yesterday, revealed the girl died of "accidental drowning."

BRING TAXI SLAYERS BACK TO TRIAL

Baltimore, July 31.—Clarence Cothron, twenty-six years old, and his wife, Grace Cothron, alias Grace Carlisle, wanted by the Prince George's county authorities on the charge of shooting to death Homer Jones, a colored chauffeur, whose body was found near Laurel, Md. June 11, are on their way to this city in custody of Headquarters Detectives Doughrty and Bradley. The Cothrons were arrested three weeks ago in Palatka, Fla., on warrants charging them with the murder of Jones.

Two indictments were sent to Florida by police officials here—one charging murder and the other charging the adbuctin of Mamie Grosscup, nine years old, daughter of John Grosscup, 614 Wythe street. Because of legal difficulties Detectives Bradley and Dougherty had a fight on their hands in having Cothron and his wife delivered into their custody.

The indictment charging adbuction was found to be in proper form, and the prisoners were returned on the instrument drawn by State's Attorney Nice. The detectives are bringing the Grosscup child with them.

CHICAGO'S RACE WAR IS WANING

Governor Lowden Believes Crisis Is Passed In Chicago

TWENTY-SIX KILLED

Troops in The City Are Increased But They Have Not Been Called Out by the Authorities.

Chicago, July 31. Comparative calm marked the situation yesterday in the Chicago race war. No serious outbreaks had been reported, the sporadic fights were few and mostly between individuals and in only one instance were police compelled to shoot. In that case a negro was killed while resisting search by two policemen.

A white woman shot a negro in the side on South Wabash avenue yesterday afternoon. She escaped unidentified.

Gov. Frank O. Lowden and other State and city officials were plainly encouraged by the diminishing evidences of mob spirit.

Although practically very militiaman in the State was either in the city or enroute here it was indicated that they probably would not be called to active duty in the streets.

"I believe that we have passed the crisis," said Governor Lowden. "Of course, the troops will remain as long as there is a possibility of danger, and their services are at the command of the city authorities.

"I believe, however, that the Mayor and Chief of Police are right in refraining from asking for soldiers. Sending the troops into the trouble districts might arouse some antagonisms, and then when the regiments were withdrawn fresh trouble might break out.

With the lull in rioting the police took stock. They checked the coroner's official death list of 26 and said that was complete. They also found that the list of injuries reported to them had increased to 325. One policeman, John H. Simpson, a negro, was killed and upwards of 30 were hurt in the three nights of fighting.

The official death list of 26 included 12 whites and 14 negroes. No women or children were dead but scores of them have been hurt some in the actual fighting.

Police yesterday redoubled their repressive measures. Commanding officers were given copies of a drastic law on "gun toting" passed by the last Legislature, and told to bring charges under it wherever possible. All public gatherings in the Southside negro section were forbidden, the inhibition extending to a jubilee celebration of a chapel, whose pastor assured the police that he intended to counsel his fellow-negroes to be calm.

Few negroes went to work yesterday. The riots and the street-car strike gave them a double excuse for remaining home. The most seriously affected district was the stock yards where only half the working forces reported, despite heavy police guards along the chief thoroughfares leading to the yards. The negroes evidently kept under cover as almost none appeared on the street, and the railroads effected there had been no noticeable exodus of blacks from the city. Reports that the 75,000 Southern negroes, who came to Chicago to get the high wages had begun to drift southward again were scouted by railroad men.

COUPLE SLEPT ON IN BLAZING BED

Baltimore, July 31.—A striking testimonial to the heat was paid yesterday when Mr. and Mrs. Allen Mullen slept on a bed in flames and never knew that it was on fire until they were aroused by Patrolman Gustav C. Lample, of the Northern police district.

Lample was passing the house when he saw smoke coming from the window. He reported that he went into the house and found the bed on fire.

George E. Price and J. F. Cook will have on sale Friday and Saturday trout, croakers, butterfish and halibut. 181-2p.

TRAFFIC BROUGHT TO A STANDSTILL

Trolley Companies in Chicago to Make No Effort to Open Traffic

COMPROMISE SOUGHT

Individual Vote of Entire 15,000 Men Who Are Concerned Will Be Taken By Union Officials

Chicago, July 31.—Strike-bound Chicago found hope of relief in the announcement yesterday that chiefs of the surface and elevated men's unions planned a referendum vote of the entire union membership to determine whether the strike vote taken at last Monday night's mass-meeting should be sustained. The union membership is 15,000; the attendance at the meeting where the strike vote passed over protest of the leaders was 6000. It was stated that another 24 hours may pass before the referendum vote can be completed.

Meanwhile the tie-up on this, the second day of the strike, was as complete as on Tuesday, the first day of the walkout. Officials of the companies said no effort would be made to run cars with the aid of strike-breakers; that they would simply wait until the situation had cleared somewhat before taking any action.

Working Chicago found its way to business yesterday by the various methods brought into service Tuesday, but the congestion to traffic was greatly reduced. Four hundred business men organized for the purpose and provided with the authority of a star did duty as traffic officers, every duty.

Operators of vehicles converted into passenger conveyances found cause for complaint when notified by 40 deputy collectors sent from the United States Internal revenue collector's office that they would be compelled to pay Government tax of $10 placed on all conveyances used for the purpose of carrying passengers.

Even the long lines of pedestrians who trudged downtown, many carrying coats on one arm and hats in hand, had not lost any of the good humor with which the conditions were accepted on the first day of the strike.

Every railroad entering the city brought into use its entire passenger equipment and ran many additional trains.

HUNGARIANS WANT YANKS IN BUDAPEST

Vienna, July 31.—With its army on the verge of collapse, there was further evidence today that the days of the Hungarian Soviet are numbered. In their offensive against the Roumanians, it is estimated the Reds lost 4,000 men.

The desire was unanimous in Hungarian moderate circles today that Budapest be occupied by British or American troops. French forces were not wanted and it was stated, above all, that Roumanians should not be sent for fear of the hostility they would cause among the population.

POTOMAC FISH COMPAN will have on sale today and balance of week, fresh crabmeat, river melons and clams and all kinds of fish. C. H. ZIMMERMAN, Proprietor. Phone 198. 179-4p.

SWIFT EMPLOYES SECURE STOCK

20,000 Take Advantage of Offer of Big Packing Concern

ONE TO FIVE SHARES

2,500 Women Are Now Shareholders —400 Cities and Towns Where Branches Are Subscribe.

Chicago Ill. July 31.—More than 20,000 employes of Swift and Company are today vested with part ownership in the packing concern. Announcement has just been made of the results that same of the gigantic profit sharing plan recently offered by the company to its people. Th avidity with which workers, from label stickers to managers, seized the oportunity to become partners in the business, is nothing short of a sensation at th ecompany's headquarters in Chicago.

So great was the demand for shares from employes that the company set aside sufficient stock to take care of such employes as are in the army and navy and who will be back within the next few months.

"We are pleased," declared F. S. Hayward, secretary of the company, "at what we look on as a vote of confidence on the part of our employes. Their response to our offer has been fairly amazing. I beblieve today that our stock ledgers will ishow a greater proportion of employe shareholders than any other large manufacturing concern in the country."

Stock which had been turned into the treasury some time ago afforded the company an opportunity which it had long sought—to offer shares to employes at par. Accordingly, the stock subscription books were opened last May on the following plan.

Each employe earning up to $20 a week was allowed to purchase one share of stock at its par value, $100 The market quotaton is much above this. Employe searning $20 and up to $30 a week were entitled to two shares; $30 and up to $40 a week three shares; $40 and up to $50 a week, four shares; $50 and over, five shares. No employe was allowed to purchase more than five shares. The stock is to be paid for at the rate of $1 a share per week.

Employes whose economies for the immediate future were committed to the purchase of liberty bonds were given the right to reserve stock by making a $10 dposit on each share; no further payment was required of them until they had completed purchase of their war bonds. The only pledge asked of any one taking advantage of the proposition was that he should look on his purchase as an investment and not a speculation.

The unexpected demand for shares has caused the company to create a special department to handle the applications. More than 2,500 of the new shareholders are women, Subscriptions have been received from employes at all of the plants of the company and also from each of the 400 towns and cities where the company has a branch house.

B. & O. SHOPMEN ASK PAY INCREASE

Hagerstown, Md., July 31.—Dissatisfaction again prevails among the Western Maryland Railway shopmen here, and it is reported they will ask for increased wages.

They are making approximately 72 cents a nhour. The increase to be asked for, it is said, will be 10 cents an hour. Lower paid shop employes will ask an increase of 8 cents an hour, bringing their pay to 60 cents an hour. The demands, it is understood, will be submitted about August 1.

KILLS GIRL WIFE AND SELF

PIRATES HOLD UP BLACK SEA SHIP

London, July 31.—The daring days of sea piracy have been born anew in the Black Sea, according to a News Agency dispatch yesterday from Constantinople.

Georgian brigands, after smuggling themselves aboard, the Russian steamer Constantine, staged a dramatic hold up in the middle of the Black Sea, that closely rivaled the achievements of the late Captain Kidd.

Drawing revolvers the bandits lined up men, women and children on the decks and ordered the captain to continue his course. The hold up men then proceeded systematically to rob the passengers of gold coins, notes, jewelry, and other valuables worth thirty-five million rubles.

Near Rizeh, on the Turkish coast the brigands blow up the steamer, rowed ashore and escaped with the loot.

IN MEMORIAM

In sad but loving remembrance of our baby, Melvin Lester Gorham, who went to rest four weks ago today, July 3, 1919.

Darling Melvin how we miss you,
Miss your gentle smiling face,
And our home seems sad and drary,
When we see your vacant place.
God needed one more angel babe
For his bright angel band
And so in love and pity,
Reached down for our darling's hand
Gone from life, yes gone forever,
Tear dimmed eyes shall look in vain,
Until we reach that shining city,
Then we'll meet our love again
By your bedside we sat and watched you.
Pass from life to yonder blissful shore,
Now we'll wait and trust in Jesus,
Till we meet to part no more.
Gone but not forgotten.
By his father and mother,
181-1p. Mr. and Mrs. E. L. Gorham.

THE PART PLAYED BY "PUNCH"

The sense of humor is inborn in most of the human race. Without a good laugh occasionally life would be burdensome, and nature, as in every other case, seems to have realized this fact. There is probably no workshop on earth without its buffoon, who sees the ridiculous in everything, and it is often suggested that such are raised up for the purpose of enlivening the depressed and heavily-burdened.

Cartoons play an important part in our mandane existence, and the spirit of caricature is as old as the pyramids. While the ancients knew nothing of printing nor comic sheets, that there were people in Thebes, Palmyra and other cities of old who were born humorists is apparent from crude pictures drawn upon pillars of temples and other structures as far back as the days of Homer.

London Punch is one of the oldest humorous productions, and is enjoyed by all English speaking people. It has been noticed by tourists from America that in rooms of London hotels two volumes can always be found a Bible and a bound volume of Punch.

Now that the fearful war has been brought to a close a number of representative Britons have the following to say in regard to the part played by this universally known humorous periodical:

"We believe, there is a widely spread feeling that 'Mr. Punch' has rendered services to the national cause during the war which are deserving of permanent record. In the darkest hours he never ceased to maintain an attitude of cheerful confidence in the ultimate triumph of our arms. His good spirits encouraged our men, whether engaged in the weary watch of the North Sea or in the trenches of the Western front, or in Salonica, Egypt, Mesopotamia or Palestine.

"His humor has lightened the burden of the sick and wounded in our hospitals abroad and at home. He has held up to the scorn of the world the ininquities of those who were responsible for the war and the brutalities of which they have been guilty during its course.

"'Mr. Punch' long ago ceased to be a figure in a periodical and became a national institution, and as such we desire to do him honor. In the days to come those who wish to know what our soldiers looked like and of what they and the nation were thinking during the war will turn to his pages as to a chornicle of the time.

"Any permanent memorial to him should consist, primarily at least, of a representation in bronze of his familiar figure and that of his faithful attendant, both of which are so dear to children, to whom such a statue will be a source pleasure."

POST WAR BOGIES

A dispatch from Richmond says: "Fashioned after the historic Ku-Klux Klan, of the reconstruction period, 213 citizens of Richmond and vicinity have banded together in a secret organization. Every man is armed and mounted, knows the ideals and principles of the mysterious organization and has pledged his sacred honor not to divulge the identity of any other member or anything which takes place within its meetings."

It is unfortunate in the present unsettled state of affairs between the white and colored races that such a dispatch should have been sent out from the capital city of the Old Dominion. While we doubt the formation of such an organization, the fact that the announcement is being spread broadcast will be deplored at this or any other time. For years state legislature have been passing laws intended to keep colord laborers from emigrating to northern and western cities, their alluring offers for their services and the progagation of dreams concerning Ku Klux Klans in the south is likely to deplete the laboring element still farther.

Shortly after the close of the civil war colored people read or had read to them exaggerated reports concerning the acts of members of Ku Klux Klans in the south, but the hallucination that so-called "night doctors" were in evidence caused the greatest distress. It was alleged that certain nocturnal prowlers appeared on the streets at night in search of subjects for medical institutions which paid high prices for bodies for dissecting purposes. It was alleged that the night doctors carried plasters which were suddenly placed upon negroes' mouths which rendered the victims as helpless as though they had been gassed at Belleau Woods. While in a state of semi-coma they were hurried to the surgeons who proceeded to hold autopsies.

Many thoughtless negroes believed this nonsense and not a few whites and the cry of "night doctor" on streets of Alexandria after dark has often caused negroes to run for their lives.

MURDERING INNOCENTS

When Herod the Great was writhing in agony, he having been eaten of worms—that is these parasites which generally prey upon dead bodies were devouring him while he was still alive—the shades of many infant boys who had been ruthlessly torn from their mothers' arms, in Bethlehem and butchered at his command doubtless added to his horrors. He was entering the abyss where the fire is never quenched and where the worm dieth not.

Hun generals who ordered the massare of innocents in Belgium and northern France are likely to pass through similar terrible experiences.

We are assured that little ones who pass away in innocency always behold the face of their Father in heaven. Those who have been victims of brutality are, of course, mingling with the blessed, and their murderers probably hear the rustle of their wings as the pangs of conscience, which will not down, torment them.

Many years ago the writer was walking on the opposite Maryland shore when he almost stumbled over the body of an infant, apparently about two weeks old. A hole in the little ones skull told the story. The child's brains had ben battered out with a hammer. The mystery was solved, The fiend who took advantage of the innocent sent it among the angels. But who can imagine the gnawings of the witness of Gor in his soul ever afterwards?

A picture which will soon be forgotten was viewed in Chicago yesterday. Six little girls in white filed from the Holy Name Cathedral carrying a small white muffin, which held the body of 6 year old Janet Wilkinson, slain by Thomas Fitzgerald, a degenerate.

The childish faces of the six little girls were very serious. Janet, whose body was in the little box they carried, was the same age as they—six. They had set together in the first grade of the convent school.

The fiend who caused this funeral should have been made to view the cortege that the picture might become a fixture upon his retina, and develop the worm that dieth not.

Ex-Kaiser Insisted That Belgium Territory Must Be Held, Says Ludendorff

Berlin, July 31.—Responsibility for the Crown Council's decision in 1917 that Belgium territory must be held was placed upon the former German Emperor by General Ludendorff in a communication published by the Deutsche Tages Zeitung.

General Ludendorff's letter said that great headquarters merely sketched the military situation and stated what measures they believed necessary to protect Germany's west frontier in an economic way. The former German Emperor, General Ludendorff said, decided the question and his decision was binding upon military headquarters.

An outline of what military authorities were said to have considered the gium, also was published today by the National Zeitung.

This outline, according to the newspaper, contemplated the extension of the German customs system to Belgium, the levying of imperial taxes on monopolies there, obligating Belgium to accept German control of Belgium taxation, trade representation and the division of the income tax. It suggested also an agreement for the equality of citizens of Germany and Belgium, and various regulations regarding shipping, legal and industrial question.

German shipping according to the published economic outline, would be given rights in the harbor of Antwerp; Belgium would adopt the German monetary system; all damage claims against Germany would be annulled; Germany would take over Belgian railroads, and the German workmens' protection insurance law would be introduced in Belgium.

BATHS KILL GREEKS

Turks Parboiled 250,000 And Put Them Naked in Snow

New York, July 31.—Charges that Turkish officials decimated the Greek population along the Black Sea coast 250,000 men, women and children living between Sinipe and Ordou, without the shedding of blood, but by parboiling the victims in Turkish baths and turning them out half clad to die of pneumonia or other ills in the snow of an Anatolian winter, are made in a letter from Dr. George E. White, representative of the American committee for Relief in the Near East to Prof. J. H. Xenides, secretary of the Greek Relief Committee here.

The worst of the crimes laid to the Turks, according to Dr. White, were committed in the winters of 1916 and 1917, when orders were issued for the deportation of the Greeks along the Black Sea coast. The people, he wrote were crowded into the steam rooms of the baths in Chorum under the pretense of "sanitary regulations" and after being torturid for hours, were turned out of doors into the snow almost knee deep and without lodging or food. Their garments, which had been taken from them for fumigation, were lost ruined or stolen. Most of the victims, ill-clad and shiversing, contracte tuberculosis and other pulmonary deases and "died in swarms" on the wy to exile, the letter declared.

"Although American soldiers are not permitted formally to fraternize with the Germans, the sight of a doubhboy with a fraulein is a common one," King said.

Youth's Irate Father Intimates He Will Break up Match

Danville, Va., July 31.—Nothing has been heard by the police regarding the success of a mission undertaken by J. A. Bruffey, a native of Lynchburg, who was here last Monday searching for his 15 year old son who ran away from home last Sunday. Bruffey told the police that his son left Lynchburg in company with Miss Myrtle Brooks, aged 21. Chief of Police Bell discreetly suggested that further information might be forthcoming from Reidsvile, N. C., which of later years has won the reputation of being a modern Gretna Green. A telephone conversation with the authorities there revealed that the boy and girl had been married by a magistrate.

On hearing this the father became indignant and secured an automobile saying that he was going to Rejdsville to get his boy and that the bride would have to "shift for herself."

Simple Operations Fitted Together

The business of Swift & Company is the fitting together of many simple operations.

No one thing in a packing business is particularly difficult for men trained to do it; but no one thing is enough.

Thousands of other operations, properly performed, are necessary for the completed processes. And some one must fit together all these thousands of simple operations.

The success with which a packing business performs its function of supplying the best possible meat products to the consumer with the greatest possible benefit to both him and the producer depends upon the energy, brains, experience, and faithful effort of the men trained in the business.

Swift & Company turns the producer's live stock into meat for the consumer at a profit of only a fraction of a cent a pound, because it fits these operations together with the least waste, overlapping, and friction.

Do you believe government direction could do it better?

Let us send you a "Swift Dollar".
It will interest you.

WILSON REVIEW

Tumulty Announces President Will Reach Pacific Coast in Time

President Wilson will review the Pacific fleet at San Francisco September 2 or 3, Secretary Tumulty announced late yesterday.

The fleet will be reviewed by Secretary Daniels at Los Angeles on August, and from that time until it enters San Francisco harbor for the presidential review, it will be divided into small units, which will visit all of the ports south of Los Angeles having harbors with sufficient water to allow the vessels to enter in safety.

Among the smaller cities to be visited by units of the fleet, Secretary Daniels said yesterday, will be Venice, Santa Barbara, Monterey and Santa Cruz. The fleet will continue at maneuvers and exercises in the vicinity of Los Angeles, until about September 1, when it will proceed to San Francisco.

Secretary Daniels will meet the fleet at San Diego August 7, but the change in the time of President Wilson's departure for the Pacific coast may prevent him from making his contemplated visit to Hawaii at this time. He had planned to leave San Francisco for Honolulu about August 18, and arrive back in the United States about September 15.

RACE TROUBLES

Illinois Blacks Incensed Because They Are Called Negroes

Bloomington, Ill., July 31.—Twenty negroes attacked Mrs. Kate Cecil, white, at her home in Normal yesterday morning after she had chased some negro children from her yard. The negroes are said to have become incensed because she called the children "negroes." Police and white citizens joined and succeeded in quelling the disturbance in short order.

Dayton, Ohio, July 31.—Representatives of a local colored welfare league appealed to the city commission yesterday for protection to the colored race in Dayton. Recent race disturbances hace occurred at two local parks, in which several hundred persons took part. Prompt action is being taken by the city.

Washington, July 31.—Recent race troubles in Washington, Chicago and other cities were due solely to local conditions, and were not inspired by Bolshevik or other radical propaganda, in the opinion of Attorney General Palmer. Mr. Palmer said yesterday reports to the Department of Justice had not shown any reason why the Department should take a hand in the disorders.

"We have evidences of some Bolshevik propaganda among negroes in the South." Mr. Palmer said. "Considerable money has been spent and great quantities of literature distributed to no effect."

PREPARED FOR DROUGHT

Eight Cases of Whisky Hauled Away From Capitol Building

Washington, July 31.—A wagon stopped in front of the Capitol today and in a few minutes eight cases of "Old Tub" Kentucky whisky were brought from one of the basement rooms in the House end of the big building.

The Capitol employee who, on an order, delivered the liquor to the driver could not deny that the boxes contained whisky as they were plainly marked. When questioned as to the ownership he admitted they had been ordered before shipments to Washington were prohibited by law and had been stored in the Capitol for safe keeping by a member of Congress, but the employee did not, of course, divulge the name of the lawmaker or tell whether the Congressman, who is tolerably well prepared for emergencies, voted "wet" or "dry" on the prohibition enforcement bill recently passed by the House.

MET DEATH BY DROWNING

Autopsy Yesterday Shows Mabel Harris Was Stunned Going Over Dam

Pompton Lake, N. J., July 31.—An autopsy held at Riverdale this afternoon on the body of Mabel Harris, which was recovered early yesterday at the foot of the dam in the Ramapo River, showed that the girl met death by drowning. There was but little water in the lungs, but Dr. Colfax, who performed the autopsy, said this probably was due to the fact that the girl was stunned in going over the thirty-foot dam and was suffocated without taking much water into the lungs.

Lester Decker, the girl's fiance and her companion on the fatal canoe trip Sunday evening, is still held as a material witness in the case.

"It Looked a Battlefield in Europe," Said Mr. C. Dunster

"Was staying at a hotel in a small Pennsylvania town. Early one morning I went to the stable to hire a rig and was shown a pile of dead rats killed with RAT-SAP, the night before. Looked like a battlefield in Europe." Three sizes, 25c, 50c, $1.00 Sold and guaranteed by R. E. Knight and Son, Alexandria; Mankin Store Falls Church.

The G-2 was engaged in experimenting with depth bombs, and it sank apparently without warning.

HER BARGAIN SOON FADES

Woman Who Bought $2000 Diamond For 13 Cents is Found by Owner

Pittsburgh, July 31.—To purchase a diamond worth $2000 for 13 cents and without knowing what a bargain she made was the experience last Monday of Mrs. Lillian Schindel, of No. 1231 California avenue, North Side. Mrs. Schindel was approached by an unidentified boy who offered the stone for sale. He told her, according to her story, that it was a "cheap diamond." Mrs. Schindel made the purchase in fun and laid the stone away.

Yesterday two detectives engaged by Mrs. Mary Seubert, of No. 1258 Juniata street, called upon Mrs. Schindel and obtained the stone. It had been traced through the boy, whose identity still remains a mystery. Mrs. Seubert told the police that while standing in front of her home a week ago last Sunday night talking to friends, she dropped one of her earrings. When she recovered the jewelry she found two stones missing. One of these was found by a neighbors boy, but the other could not be located.

Charter for Aircraft Corporation Gives Right to Carry Passengers

Humdrum travel through Virginia on railroads and flivvers may be materially curtailed within the near future when the Danville Aircraft Corporation gets under way plans for furnishing the public with airplane passenger service.

Initial steps in this direction were taken by the corporation yesterday, in filing with the State Corporation Commission a petition for a charter, permitting it, not only to engage in carrying passengers high above the muddy, dusty roads, but to do all sorts of aerial advertising, mapping and photography from these machines

The corporation will manufacture, buy and sell them, under the terms outlined in its prospective charter. It will use them for exhibition flights. The charter does not say so, but it may bring Danville folk to Richmond the theater and then take them back home for midnight dinner. Its maximum capital stock will be $25,000.

KILLS SELF AND WOMAN

Rochester Man Shoots Landlady and Slashes His Arteries

Rochester, N. Y., July 31.—In what the police believe was an insane fit of jealousy, Barston Stewart, 45 years old, shot and killed Mrs. Susan Clark, 55 years, with whom he had boarded for the last 15 years, in her apartment in Main street, West, early yesterday evening. He then slashed his own wrist and throat, inflicting wounds from which he died two hours later in the Rochester General Hospital.

Stewart talked incoherently when first taken to the hospital, but soon lost consciousness and died. Neighbors said they heard no sounds of quarrel before three shots were fired. When the police and ambulance arrived, Mrs. Clark was found dead in her chair and Stewart on the floor.

Mrs. Clark had been married, but had not lived with her husband for 18 years. Stewart was said to have been married and divorced.

SHOOTS COUSIN FOR THIEF

York (Pa) Man Entered Barn While on Visit

York, Pa., July 31.—Charles Mitzell was shot early yesterday morning by his cousin, Clarence Mitzel, in the latter's barn in mistake for a thief, The wounded man is in York Hospital in a serious condition.

Charles Mitzel had been working in Lancaster and at a late hour Tuesday night he returned to visit his cousin. He arrived after Clarence Mitzel and his family had retired for the night and decided to sleep in the barn rather than arouse them. Clarence Mitzel heard his cousin moving about in the barn and securing a shotgun he discharged it through the open door and later discovered his mistake. The wounded man, it is said, will lose the sight of one eye.

MUST KNOCK OUT H. C. L.

President So Informed by Warren Stone And Engineers' Brotherhood

Warren Stone, president of the Brotherhood of Locomotive Engineers, and the advisory board of that organization yesterday requested President Wilson and his Cabinet to take immediate steps to lower the cost of living. Otherwise, the President was told, wage increases will be asked. The request was in the form of a statement, presented personally to the President by Stone and other members of the delegation. A reply in "the near future" is asked to guide the "future actions" of the engineers.

The statement charges "conscienceless profiteering" and expresses the belief that wage increase would bring only temporary relief. In view of continually soaring prices, and in effect asks that the "endless chain" of wage increases followed by price increases, be broken.

BOY CARRIES HIS OWN FOOT HOME

Mt. Solon, Va., July 31.—This section was shocked last Saturday when the eight year old son of Edward Stoutamoyer accidently stepped in front of a mower, which was being operated by V. H. Shull's small son, and had the left foot entirely severed. The accident was purely unavoidable on the part of the young operator of the mower. It is reported that the boys were warned and cautioned not to go about the mower in the absence of Mr. Shull.

When the foot was cut off, the boy picked it up and desired to carry it to the house with him. Some older folks wanted to assist or carry the boy to the house, but he insisted he could go alone. He is doing fine resting well at night and from present indications promises to get along well.

COLLAPSED BANK

Cashier Accused of Wrecking Philadelphia Institution

Philadelphia, July 31.—Trembling and twice on the verge of collapse, Walter O. Coffleish, the bookkeeper of the defunct North Penn Bank went on the witness stand Tuesday at the hearing of Ralph I. Moyer the cashier accused of wrecking the bank, and as a self-confessed tool of the official, laid bare every detail of the amazing manner he juggled accounts in a desperate but futile effort to conceal a shortage of $2,144 000 from the State Bank Examiner.

Equally sensational was the statement of R. P. Ferguson, the State Bank Examiner, who uncovered this shortage. He testified that the bank had been insolvent for at least one year or eighteen months, and said Moyer himself had admitted that its insolvency had extended over a period of perhaps two years. This was during the tenure of Daniel F. Lafean as State Commissioner of Banking. Mr. Lafean at one time stated he had borrowed $5000 from this bank last February, after he had retired from his official position with the State.

The State banking officials not only declared that the bank had been looted, but they promised further arrests.

Mr. Ferguson testified that the overdrafts had reached the aggregate of $1,396,000. In addition, he showed that $439,000 was owed to depositors on checking accounts over the accounts carried on the general ledger, while there was a shortage of $309,000 additional in the savings deposits This shortage, going well over the $2,000,000 mark did not include either any bad loans which the bank may have.

Moyer was held in $25,000 for court ,after Joseph H. Taulane, Assistant District Attorney, asked that the bail be increased to $35,000.

WIRES GO BACK TONIGHT

Burleson Issues Order Making Effective Congress Bill

Postmaster-General Burleson last night issued a formal order making effective Congress' bill returning telephone and telegraph systems to private ownership at midnight tonight.

All companies under Government control said Burleson, with which compensation has not been fixed or concluded, should at once take up their compensations with Chairman Lamar of the finance committee of the Wire Control Board. This, he said, is in order that he may make his report to Congress upon the operation of the wire systems by November 1, 1919, as required by law.

Under Burleson's order all companies are directed to close their books at the hour of return and to proceed promptly to collect all outstanding indebtedness and accounts arising out of the operation of the systems during the period of Government control. They must submit a full account to Lamar at the "arliest practicable time."

All companies who have an excess over their allowed compensation must transmit the excess to Lamar within five days after the ascertaining of the amount due.

TELLS NEGRO' THREAT

Black in Perryman Affair Announced Criminal Intentions, Says Mrs. Wolfinger.

Belair, Md., July 31.—The condition of Charles Holmes, colored, who is suffering from a gunshot wound in his kidneys, following his attack upon Mrs. Mary Wolfinger Monday, is said to be worse. The physician in charge refused to comment on his chance for recovery.

State's Attorney McComas motored to Short Lane yesterday to see Mrs. Wolfinger and learned from her that the negro had declared his intention to criminally assault her. This was the first opportunity Mr. McComas has had to talk to the woman since her exciting experience with the negro Mrs. Wolfinger resumed her duties as acting watchman at the crossing today.

"When I barricaded myself in the watchman's box," said said, "the negro stood in front of the window, and while in a compromising attitude declared his intention to criminally assault me. He then tried to force the door, and being unsuccessful, threw a rock in the window at me. When I shot at him, believe me, I shot to kill and I am sorry I didn't shoot him instead of Mr. Jewens doing it.

"When I went to the station Sunday the negro was there and acted in an ugly manner. He ran off just as the train bearing my husband came into the station. I told my husband what occurred, but the negro was then out of sight."

8,000 TO STAY ON RHINE

First Division Will Start Homeward August 15.

Coblenz, July 31.—The First Division of the American army will begin entraining for Brest on its return to the United States about August 15, according to informal information from central headquarters received here. This would leave a total about 8,000 American troops in the army of occupation. This force would be composed of the Eighth Infantry, which probably would be garrisoned at Coblenz, with a company of engineers, a company of military police, and a unit of artillery.

This program, it is said here, is subject to change upon suggestions by the Interallied Council at Paris.

The American Third Division will begin entraining for Brest August 5, according to a Coblenz despatch dated July 27. It was said a week would be required to move the division to Brest.

A Washington despatch yesterday announced that all of the First Division except the units to be retained in Germany would entrain August 15 but the strength of the force to be left on the Rhine was not given.

NOW IS THE TIME

To Build Up Permanently. Nature at Its Best as an Aid.

If you who are weak, nervous and run down from over-work, worry of any other cause would only realize that the summer months is the time to build up strength and vigor there would not be so many collapses and rushing for aid during the winter.

The plan to follow is simple: plenty of rest and good wholesome food along with a strength-creating body- building tonic, Chasco-Vin with its Iron, Manganese, Hypophosphites, Nux and other strength making ingredients, is the tonic we suggest.

If you follow this plan carefully you will notice a wonderful improvement in two weeks time. But don't give up too soon.

The Local agent for Chasco-Vin is Edgar Warfield, Jr., King and Pitt Streets.

Alexandria Laundry, Inc.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.
